Charlene Sippel Won Township Spelldown

On April 8 the annual spelling contest of Orland Township was held at the Orland Grade school. Two representatives from each school district took part in the contest.

Mr. Heffernon, first assistant to the County Superintendent of Schools, gave the words to the contestants.

Charlene Sippel from the Holstein school, won the first place honors. Howard Olson from Doctor school was chosen as the second representative. Walter Yunker from Orland Park Grade school was first alternate.

These winners will represent Orland township in the All Cook County Spelling contest later this spring. Congratulations and good luck in the future to all these winners.

Goal is set, organization done, ready to swing into action. Mrs. George Rinke, Cancer Crusade chairman, is happy to report that some of the Crusaders contacted her to offer their services. "This is the type of enthusiasm and civic spirit that will spark the Crusade to success."

As a community Mokena does not have a set quota but without a doubt it will easily surpass last year's collection which was only \$11.63—one individual mailed to headquarters a check for \$10.00 and \$1.63 was collected in coin boxes placed in various locations. That total by no means expresses the true generosity of Mokena people.

What will you do about Cancer in 1952? Open your door to the ladies who are giving so unselfishly of their time to distribute information to each home and please contribute to help further the work of the American Cancer society which is the only voluntary health agency in the United States devoted to the control of cancer through a comprehensive program of research, education and service.

RESEARCH—The support of cancer research is a major objective of the American Cancer Society and 25 per cent of the gross contributions are allocated for this program which is carried out on a national level.

EDUCATION—One of the primary functions of the society is to bring to every individual sufficient knowledge so that he will not lose his life needlessly. Educational movies are shown, booklets, pamphlets and posters are distributed and programs are presented to clubs, civic organizations, fraternal and church groups.

SERVICE—The purpose of the service program is twofold: one, to make the professional services of nursing, detection, diagnosis and treatment more accessible to more people everywhere, and two, to improve the quantity and quality of volunteer aid to the cancer patient.

The Will County Chapter of the American Cancer society maintains offices in the Morris Building in Joliet and is always a source of information and help for those who want or need it.

FRED LEHMANN WRITES LETTER TO MOKENA V. B.

In reporting the proceedings of the Mokena village board meeting in the April 3 edition, it was mentioned we would try to publish a letter which Fred Lehmann had written to the president of the board. The letter follows:

Mokena, Illinois
February 25, 1952
Harold Spiess, President,
Mokena Village Board,
Mokena, Illinois.
Dear Mr. Spiess:

Perhaps all cities have planning commissions of some sort or other and it is generally accepted that they are a desirable part of city governments. What is generally lost sight of is that every community should have a civic planning commission and our town is no exception.

If Mokena had had such a commission years ago, our business district would not present such an ugly and unprepossessing appearance today. It is unnecessary to call your attention to the unsightly quonset huts used as coal offices, the coal piles, railroad cars parked along side of our main business street, etc. Had such a commission been in existence that area would not present a pleasing park area and there would have been no reason for the Board to have permitted the construction of additional commercial facilities on the other side of the tracks with the additional spur and its accompanying parked railroad cars.

A planning commission could have provided for adequate park areas, playground areas for our children, ball fields, tennis courts, outdoor skating in winter, a swimming pool and a community building. These are some of the facilities dealing with the intangible factors that make for better living and has nothing to do with the practical and more prosaic functions of the Village Board with regard to fire, police and health protection, water, sewage disposal, etc.

May I therefore suggest that it is not too late for your Board to study the wisdom of creating a planning commission? Perhaps a committee could be appointed to investigate its possibilities. A planning commission might have some active member of the Civic Association as its head with someone from the Village Board as an honorary member together with members from the village and outlying areas, primarily the commission should be non-partisan and representative of the entire community. The administrative costs of the commission, which should be nominal, might well be assumed by the Civic Association.

As our community continues to grow it will become increasingly necessary that the facilities previously mentioned be made available. None can be built overnight, but wise planning and preparation can be started so that in the not too far future we can realize some of them. Land is still available within a fairly close radius for some of the things needed. Perhaps studies might also be included with regard to the feasibility of establishing a park district now easily possible under new state legislation.

An early reply would be greatly appreciated.
Very sincerely yours,
Fred G. Lehmann

C. Swanberg, Pres. Civic Ass'n.

Mystery Play Apr. 24, 25 and 26 by N. L. Drama Club

"Drums of Death", a mystery play in three acts, will be presented by the New Lenox Methodist Drama club Thursday, Friday and Saturday nights, April 24, 25 and 26 at 8:15 o'clock in the Haven school at New Lenox.

Amateur groups receive no remuneration for the hard work and steady rehearsal schedule that each production entails, but they do it for pleasure both the pleasure the group finds in working together and the pleasure of the opportunity to entertain an audience with a job well done.

After a successful performance, the New Lenox group feels that the applause of friends and neighbors, letting the cast know that their efforts have been appreciated, is ample reward for time and effort spent in anticipation of curtain time.

Another group beside the cast which labors long and hard before the play is presented, also is not on hand at the culmination of the play, curtain time is the back stage crew who have done the leg work to assure a finished production.

The following are working behind the scene in "Drums of Death": Make-up and costumes, Marge Goldenstern, June Duffy and Kathleen Henderson; lighting, Elmer Goldenstern; set building, Rev. Ralph Miller, Don Anderson, Vernon Miller; property, Marion Yates; prompter, Lucille Tvorog; sound effects, Ed. Mooney and photography, Clarence Carlson.

Benck, of Oak Lawn, vice-president of the Cook County Truck Gardeners' and Farmers' Association and a director of the Vegetable Growers Association of America.

A Vegetable Queen is chosen from all vegetable areas in the country each year. When a local queen is chosen she is then a candidate for Vegetable Queen from her state and finally from among the State Queens a National Vegetable Queen is elected.

Mr. Benck stated that the qualifications for Vegetable Queen are that a girl must be between the ages of 17 and 24, single, and the daughter of a vegetable grower. The selection will be based on points for appearance, poise, achievements and accomplishments.

Anyone who knows of some girl who can qualify for this honor should submit two 5"x7" full length pictures of the candidate and a letter stating her achievements and accomplishments. These should be submitted to the office of the Cook County Truck Gardeners and Farmers Assn. in Des Plaines, Ill., or to John W. Benck, at 4455 W. 115th St., Oak Lawn.

The Local Queen will be selected early next week and her pictures and qualifications will be submitted to the Illinois State Vegetable Growers association who will select a State Queen from among the entries from the various vegetable areas of Illinois. The Queen from Illinois will then be sent to the Annual Convention of the Vegetable Growers Association of America at Tampa, Fla. in December where the National Queen will be selected and she will reign at the Convention.

The Local Queen will, no doubt, be feted on radio and television programs during national Vegetable week, August 3 to 9. Carol Jean Wille of Elk Grove township was chosen a local and state of Illinois Queen in 1951, and Elaine Tessman of Minnesota was chosen as National Vegetable Queen in 1951.

Write-ins were, John Horras, 1; Harold Miller, 5; Earl Moss, 1; Marvin Kohl, 1; George Bennett 1 and Henry Miller 2.

District 122, New Lenox
J. Earl Robinson received 59 votes and Carl J. Ryden, 57 and were re-elected. Lowell M. Webb, who succeeded Ralph McCoy, who retired from the board received 58 votes. The plan to extend the school year beyond nine months was approved by a vote of 51 to 9.

District 157, Frankfort
A light vote was cast here as there was no contest. Albert H. Krusemark was re-elected by 23 votes.

For the high school, Case received 57 votes and Reiter 46.

District 156, Lincoln Estates
R. Urbano, 34 votes; Walter Carter, 24; W. Ritt, 1 and Steve Kubeck 1.

D. Young-K. Fulton Wed In Mokena

Miss Dorothy Young, daughter of Mr. and Mrs. Ben Young, and Kenneth J. Fulton, son of Mr. and Mrs. Clarence Fulton, all of Tinley Park, spoke their nuptial vows in a double ring ceremony at 7:30 p.m. Saturday, March 29, in St. John's Evangelical and Reformed church, Mokena. The Rev. William Riemann officiated.

Palms and arrangements of white snap dragons and gladiolus decorated the chancel. The aisle and altar were lighted by candles. The organist, Mrs. Mildred Maue, played the traditional wedding march, and accompanied the soloist, Oliver Kieslar, of Mokena, who sang "The Lord's Prayer", "At Dawning" and "Through the Years."

The bride's gown of white satin was designed with a Chantilly lace bodice trimmed with seed pearls and a medium length train. Her fingertip veil was attached to a lace Juliet cap. On her hair she wore an orange blossom halo which had been worn by the groom's late grandmother at her wedding 64 years ago. She carried a white prayer book covered with an orchid and satin streamers.

Mrs. Elda Mae Gougar of New Lenox, matron of honor, wore a blue organdy dress over taffeta and a white hat trimmed with daisies.

The other attendants, dressed similarly, were Miss Carol Henke, Tinley Park, in apple green, Miss Lois Mancke in pink, and Mrs. Earl Moss in orchid, both of Mokena.

Attending the bridegroom were Ronald Fulton, brother of the groom, as best man, David Armstrong, James Murray, of Joliet, and Philip Goodrich of Chicago. Ushers were Earl Moss of Mokena, and Orville Rauch of Orland Park.

Mrs. Young wore a suit dress of navy blue with navy blue accessories. Mrs. Fulton chose a navy crepe dress with matching accessories. Both wore camellias.

Following the ceremony, a dinner was served to members of the immediate families and the wedding party. Later a reception was held in the VFW hall in Mokena with 400 guests attending.

On their return from Niagara Falls the bridegroom will return to the signal corp headquarters at Ft. Monmouth, N. J. The bride will reside with her parents for the present time.

ORLAND AND PALOS SCHOOLS CONSOLIDATE

The Orland High school District No. 221 and the Palos High school district No. 222 were consolidated by action of the Boards of School Trustees of Bremen, Orland and Palos townships at their regular semi-annual meetings Monday evening, April 7. By this action the trustees have granted the request of the citizens in these two areas who petitioned them to take this step. The numbers

of signers were 1154 in Orland, and 1448 in Palos. The new high school district thus formed will be designated as Consolidated High School District No. 230, Cook County, Illinois.

This consolidation of the Orland and Palos High school district at this time has resulted in the cancellation of the elections of high school board members in these districts which had been announced for Saturday, April

12. Instead, an election is being called for Saturday, May 3, to elect a seven-member Board of Education to serve the new consolidated district.

The date of May 3 has been set for the election of the new Board in order to observe the Illinois school code requirement that the board in a newly formed district be elected within 30 days.

Petitions to nominate candidates for membership on the new board must be filed with the County Superintendent of Schools by Saturday, April 12. Nomination petition forms are available at the home of Mrs. Charles H. Retzke in Palos Park and at the high school office in Orland Park. An official notice of election will appear in this newspaper in the near future.

WEIGHT WHERE IT COUNTS for BETTER DISKING in TOUGH CONDITIONS

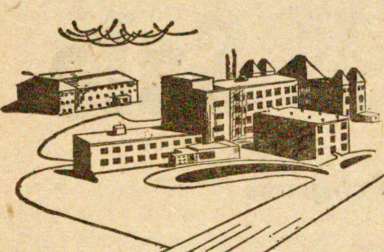

The JOHN DEERE Model "KB" DISK HARROW

Hard-baked stubble, stubborn stalks, and heavy trash meet their master when you enter the field with a John Deere "KB" Heavy-Duty Disk Harrow. The husky Model "KB" makes short work of the toughest disking jobs because proper weight distribution of the heavy-duty frame holds the gangs to their work and assures good, uniform penetration.

Ample clearance prevents clogging, even in trashy conditions. Frame connections provide flexibility for even penetration over the full width of the harrow—on turns or on the straightaway. Heat-treated disk blades hold their keen cutting edge longer. Gangs run on extremely hard, friction-reducing bearings. Ask us about a Model "KB"—there's a size to fit your farm.

Explorer Scouts Report on Progress

The first meeting of the reactivated Mokena Explorer Scouts was held February 14th. After registration our charter was drawn up. Plans for a camping trip to Camp Rainbow on the weekend of the 23rd and 24th were discussed. Plans were also made for a trip to Wisconsin this summer.

February 20 the group met again and planned a paper drive to be held Washington's Birthday, and also discussed the subjects of having a drill team and of further advancement. The plans for the weekend camping trip were completed.

February 22 the paper drive project got underway starting at 8:00 a. m. Eleven boys participated under the direction of Adviser Bill Dalton, of Joliet. The use of the truck was donated by Welsch Lumber Co. The total profit was \$28.00.

Seven of the group went to Camp Rainbow on the weekend of the 23rd and 24th. A new addition was built to our lean-to and the old one was rebuilt. Also three reflectors and other practical equipment were constructed. The camp was named Pine Tree. Jack Newton, Fred Rauch, and Lyman Teague were advanced in rank.

The next meeting was held February 25. A budget of \$75 was prepared for the year for submission to our sponsor, the Mokena Civic Association. We held further discussion regarding canoe trip for late summer, and regarding drill team.

At the March 4 meeting, the feature of the evening was a film on Post Organization, shown by our advisor.

At our meeting of March 10 we received our American flag and Post flag, Pine Tree, which symbolizes our camp site. Officers elected to serve for three months are: Senior Crew Leader, Phil Howell; Assistant to Crew Leader, Fred Rauch; Sec. Treas., Bill Bradley, and Historian, Lyman Teague. Outdoor, Indoor, Social, and Service crews were formed. A movie, "How to Prepare for an Outing" was shown.

On May 24 our Post drill team will lead a parade in Wilming-

ton. The drill team includes every registered man in the Post, of which there are now 22 members. We are very fortunate in having as our Adviser Bill Dalton, whose interest and inspiration have made the Mokena Post the best in the Council.—Lyman Teague, Publicity.

washday

is

any day

when you have Automatic Laundry Appliances!

You won't be schedule-bound . . . when you have modern automatic laundry appliances! "Doing" a laundry is so easy, takes so little time, you can polish it off any hour of any day. You'll add two new days to your week . . . days you used to spend washing, hanging heavy wet clothes, standing for hours over an ironing board.

Your automatic washer will wash, rinse and spin the clothes while you're busy elsewhere. When washing time is up, you'll simply toss the clothes into the dryer . . . where they'll tumble and fluff-dry in minutes. Later, whenever you feel like it, you can sit down at your modern rotary ironer and in no time at all the entire laundry's finished!

You won't dread Monday . . . you won't worry about the weather . . . and you won't have "ironing backaches"—when you have automatic laundry appliances.

N. L. Plans for More Kindergarten Pupils

Present indications are that there will be a record number of kindergarten enrollees in the coming school year. As a consequence the New Lenox public schools are contacting parents a bit earlier than usual in order to determine how many children they will have to plan for.

If a child will be five years old on or before December 1, 1952, he or she may enter kindergarten in September. Copies of birth records must be submitted for examination before a child may be enrolled in school. If the child is brought to the Round up on May 7, the birth record may be given at the same time to the school superintendent only.

Because there is no space for a kindergarten in the Haven school on South Cedar road, New Lenox, all kindergarten work must be in the Oakview school. Kindergarten children attend school for a half day only. Everyone is asked to fill out the forms that are being mailed to them and return as soon as possible.

We Like Ceilings

At every turn today, we hear about ceilings. It is ceilings with this or that, and indeed, we can hardly mention anything in our daily life, be it eating or other necessities, but that the ceiling takes the first consideration. We really are all fed up on these ceilings.

But there is one ceiling that we favor entirely, and that is THE NEW CEILING IN OUR SHOP. And if this new ceiling will perform its duty for the next 103 years as has the old ceiling, we can only say, "Well done."

Such a record! For 103 years, that old ceiling, with the aid of its cooperating roof which has seen a number of renewals, has protected its owners, all in the same family, from the many severe winter storms, of cold, snow, ice and wind, adding its ability of warmth and protection. Also from the hail and heat and high winds of spring and summer, some of tornadic nature—when trees fell on and about it; under all these trying circumstances which proved, even yet, its dependability.

Our hats are off to its builders of long ago; for their knowledge of good material and craftsmanship. And speaking of that good material, yet today, it is as solid and maybe more so, than when first installed.

Even though at times in later years, by the vibration of modern accessories, there were spots that weakened and gave way, yet when the builders of today, covered that old ceiling a few weeks ago, its plaster and mortar as a whole, still remained fast.

For many years, it was the aim and plan of the late owner and founder of the Semmler Newspapers to replace the old ceiling with a new one, and if he were here today and could see this nice new ceiling of Celotex, with all new electric wiring and fluorescent lights, his happiness would be without bound. And we, today, next in line of family owners, rejoice in this achievement, and hope that as long as this old landmark building remains, it will prove able to serve its purpose well.

Last year after 102 years, the old double doors at the front entrance gave way, and were replaced with new ones. Which reminds us, now that Spring and Easter is here, that the old fades away in the awaking of the new.

Include Will Co. in Proposed TV Set-up

Will County can look forward to its own television on a new station which may be built under a plan of the Federal Communications Commission, in Joliet.

The FCC plan, which has just been adopted calls for 56 new stations in Illinois. Most of them will operate in the Ultra-High Frequency range, which is an untapped section of the radio spectrum. Use of this UHF band and expansion of the present Very High Frequency service should eventually permit nearly 2,000 new television stations in every section of the nation. The 108 television stations now operating in the United States are in the VHF range.

"The adoption of the UHF plan in conjunction with the expansion of VHF means the beginning of a truly nationwide television service, with visual entertainment and education brought to remote areas miles from the nearest cities," stated Dr. C. B. Jolliffe, vice president and technical director of the Radio Corporation of America, which pioneered the development of UHF television.

"We are ready to build the transmitting and receiving equipment to bring about this national television service."

When new stations are built, home television receivers will follow quickly, judging from the experience of present television areas. Based on the national pattern, Illinois can anticipate more than 1,400,000 sets a year or two after the new stations begin operation, with
